

March 2016

Welcome to the Bucks County Challenger Baseball Program!

We are thrilled to be entering our first year of service to the Bucks County Community with this pilot Program. This program will reach out to those athletes, boys and girls, with special needs, giving athletes the unique and fun opportunity to pair up with high school athletes for a 5-week program of skills, drills, games and most importantly long-lasting friendships.

We are proud to have volunteer student athletes who represent the local school districts and the Newtown Athletic Club. These students and volunteers give unselfishly of themselves each week and will truly be rewarded with relationships that last a lifetime.

There is no cost to participate in the BCC Baseball program. **Registration will take place on the first day which is April 10th at the Newtown Athletic Club.** In order to register please just bring a recent picture of your child and a copy of their birth certificate. Special Needs children who register will receive a week snack and water.
