

***Attention Parents and Guardians of  
Current 5th-9th Grade Students in Pennsbury!***

**YOU ARE INVITED TO ATTEND A  
1:1 CHROMEBOOK INFORMATION NIGHT**

**MARCH 7 • 7:00 PM • KELLER HALL  
PENNSBURY HS WEST • 608 S. OLDS BLVD., FAIRLESS HILLS**

Learn about an important new School District initiative debuting at the start of the 2017-2018 school year. Working in partnership with Pennsbury families, the District will provide every student in grades 6-10 with ubiquitous access to a Google Chromebook computer. A one-to-one program means every child will use an assigned computer both in school and at home for personal learning.

Moderated by Superintendent Dr. William J. Gretzula, the evening will include a presentation and demonstration by Pennsbury Director of Technology, Kevin Dorsey, and a Google representative. Topics to be covered include:

- What is the District's vision for one-to-one technology implementation?
- How can Google tools support teaching and learning?
- How can Chromebooks be used to enhance teaching and learning?
- How will Pennsbury promote digital citizenship?
- How can families support this initiative through lease-purchase options?

If you have additional questions you would like to hear addressed at this presentation, please email them prior to March 7th to: [ChromebookQuestions@pennsburysd.org](mailto:ChromebookQuestions@pennsburysd.org). Following the Chromebook presentation, further questions may be submitted to the same email address. An FAQ will be posted after the meeting.
